RESPONSE TO OFFICE ACTION

Commissioner for Patents
Washington, D.C. 20231

Dear Sir:

In response to the Office Action dated November 5, 2002, please enter the following amendments and consider the following remarks.

AMENDMENTS

IN THE CLAIMS:

Replace the indicated claims with:

61
1. (Twice Amended) A disc-shaped eccentric rotor having at least one air-core coil and generating a difference in centrifugal forces by the rotation of the rotor, the rotor comprising:

a flat commutator member having a central shaft insertion through hole;

a plurality of commutator land segments located around the shaft insertion through hole on a first side of the flat commutator member;

air-core coil end portion connection lands arranged circumferentially on a second side of the flat commutator member;

a shaft holder installed around the shaft insertion through hole on the second side of the flat commutator member; and

at least one wound air-core coil installed at the wound air-core coil arrangement guides and having end portions connected to the air-core coil end portion connection lands.
